Orlando, Florida (October 10, 2006) – The Bill Madonna Golf Academy is pleased to announce a partnership with KinderGolf, a unique preschooler golf instructional program. Founded in Singapore in 2000 by Donna Lee, an international certified staff instructor for the Bill Madonna Golf Academy, she has completed the U.S. Ladies Professional Golfers Association National Education Programs 1, 2, and 3.

“When Ms. Lee brought graduates of her KinderGolf program to our academy, I was amazed at not just the golfing skills of these seven, eight and nine year old golfers, but also the poise and confidence they exhibited. I contend that there are very few, if any, seven to ten year old junior golfers who compare to the capabilities of these children. Knowing that Donna actually begins developing golfers at the age of two sets her apart from the vast majority of golf instructors. She and her KinderGolf coaches have set the bar at its highest level for preschool golf. Introducing this level of golf instruction into my golf academies has long been overdue. I look forward to offering her developmental program which will expand the services at my schools,” said Bill Madonna, owner, Bill Madonna Golf Academy, Orlando, Florida.

“Partnering with the Bill Madonna Golf Academy assures me of the highest level of professionalism. Bill’s passion for junior golf coupled with his years of experience will assist our entry into the United States market and allow us to present our KinderGolf developmental program at quality locations. I have long wanted to continue golf instruction for the graduates of my KinderGolf program. As my seven year olds complete their training, different skill sets are needed for the next age group of eight to twelve. By joining forces with Bill Madonna Golf Academy, the skills needed for this age group are available,” said Ms. Lee.

Bill Madonna has spent the last 30 years honing his skills as a teacher of the golf swing. Bill has worked with PGA and LPGA touring professionals, mini tour players, club champions and tens of thousands of amateurs of all skill levels around the world. Bill has developed an international reputation for improving golfers’ games by emphasizing Putting, Wedge and Driver techniques. Through his many years of teaching and helping golfers improve their games, he has become a nationally recognized, credentialed instructor. *GOLF Magazine* has annually selected Bill as one of the "Top 100 Teachers in America". Bill is a PGA Master Teaching Professional, a PGA Section "Teacher of the Year" award winner and has attended and directed teaching and coaching summits, teacher workshops, clinics and seminars and other golf instruction programs offered by the PGA for the last 30 years. He has spoken at international PGA Teaching Conferences and has given countless clinics and seminars for his fellow PGA golf professionals. Bill Madonna Golf Academy (BMGA) is located at the Orlando World Center Marriott in Orlando, Florida.

KinderGolf is a unique preschooler golf instructional environment specially designed to groom the next generation of very good golfers. All KinderGolfers are taught solid golf fundamentals, proper golf etiquette, rules, respect for the game, and at the same time, important mental and life skills like discipline, focus, confidence, integrity are nurtured as part of the learning. KinderGolf was founded in Singapore in 2000, has 9 locations and has introduced thousands of preschoolers to the game.
